## Budget Fire Hydrant (Item PAWP101)

*A favorite of dogs big & small!*

This decorative fire hydrant is a must-have for every dog park. The fire-engine red hydrant was designed with tight budgets in mind. It's durable, attractive and DOG APPROVED!

### Product details:

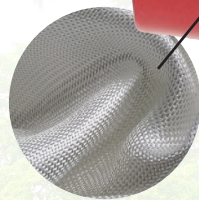

- Urine-resistant and fade-proof.
- Measures 25.7" tall with 9.5" diameter. Full width including arms is 13.3".
- Weighs 11 lbs.
- In-ground or surface mount (in-ground hardware included)

### Assembly:

Easy to install. Hardware kit includes 4 spikes that attach through the base into the ground. To install, gently wet and soften the dirt where you are placing the hydrant, and align the spikes with the holes in the base. Simply push them into the ground to secure. If ground is too hard, (gently) use a rubber mallet to finish the job.

### Construction:

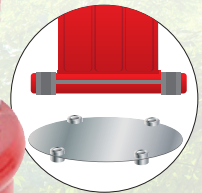

Made of thermoplastic-coated fiberglass, the hydrant is lightweight and designed to resist the affects of dog urine. The base features a reinforced steel plate so it can be installed directly into the ground or on a concrete surface. The bright color is easy for yard workers to spot during lawn maintenance.

Inner walls of hydrant are reinforced with extra fiberglass and resin

Included spikes for in-ground mount

Base features reinforced steel plate for concrete surface mount.

## Why Pet Waste Eliminator?

### ■ IN STOCK & SHIPS TODAY!
